

Visualization 7. Degeneracy in Purcell factor of the optimized (a1-a4) spherical and (b1-b4) ellipsoidal NRs at excitation and emission wavelengths, (a1, b1) bare_4, (a2, b2) coated_4, (a3, b3) bare_6, (a4, b4) coated_6 nanoresonators. Insets show the schematic drawings of the corresponding optimized system.
